

	Time	Speaker	Title
	9:00	Krista & Ilja	Opening remarks
Action	9:10	Krista Overvliet	Haptic search for movable parts
	9:30	Ilja Frissen	How moving your legs can create the perception of illusory self-motion through space
	9:50	Roberta Klatzky	Force magnification in perception and consequences for action
	10:10	Break (15 min)	
Tactile	10:25	Andrew Chepaitis	Font presentation variables and their effect on reading speed
	10:45	Santosh Chandrasekaran	Electrical stimulation of the cervical dorsal spinal cord and rootlets (DSCR) for sensory restoration in upper-limb amputees
	11:05	Hiroshi Ishii	RADICAL ATOMS: Beyond Pixels
	11:45	Vincent Levesque	An introduction to the Latero tactile display (with demo)
	12:00	Lunch (1.5 hrs)	
Technology	13:30	Patrick Bruns	The role of apparent motion signals in tactile temporal order judgments
	13:50	Jared Medina	Patterns of tactile localization after damage to somatosensory cortex
	14:10	Lynette Jones	Using temperature as a medium of communication in cutaneous displays
	14:50	Break (15 min)	
Cogn & MSI	15:05	Farley Norman	Aging and the haptic perception of material properties
	15:25	Brendan Stanley	The developmental trajectory of auditory-tactile integration
	15:45	Patrick Malone	Neural mechanisms of category learning in the human somatosensory system: An fMRI study.
	16:05	Break (15 min)	
Cogn. & MSI	16:20	Sandra Murphy	High task load increases "inattentional numbness"
	16:40	Kaian Unwalla	The influence of gravity on the crossed-hands deficit
	17:00	Yuqi Liu	Relative weighting of tactile, spatial and motor information in multisensory integration
	17:20	Krista & Ilja	Closing remarks
	18:00	Poster session	Taste and Touch (posters 1001 – 1006)
	20:00	Roberta Klatzky	Meeting Psychonomic Society: Keynote address (in Grand Ballroom) Perception and Action in the Wild
